MAUS KPI Dashboard

The MAUS KPI Dashboard software acts as an interface for business owners to internally monitor their company's KPIs in order to help increase profits, accountability, performance of staff, and strategy execution. MAUS KPI Dashboard is designed to drive accountability and strategy execution, allowing you to:

- Monitor your strategic planning and create action plans to remain accountable to strategies.
- Create a 'one page' snapshot of your company's performance, key metrics and strategies.
- Create unlimited dashboard reports.
- Allocate projects to your workforce as you write the plan to drive the business forward.
- Easily import accounting data from XERO, QuickBooks Online or Excel.

Take a snapshot of your business & monitor the performance of your KPIs!

Easily export reports

"We have used the MAUS Hub as a planning tool for and have found by writing down and then monitoring progress, we have become focused on delivering the outcomes agreed. A truly great tool"

- Stuart Nettleton, Legacy Property
